### **A SUMMARY OF CAMBRIDGE AFRICAN NETWORK (CAN)**

Cambridge African Network (CAN) is a UK-registered charity (# 1143180) as well as a company limited by guarantee (# 07462320) working to promote social inclusion and the integration of the African Community in the multicultural society of Cambridgeshire. CAN was founded in March 2008 in Cambridge for the black, African minority group in particular and the public in general with a commitment to supporting quality of life and general well-being.

As a result, we facilitate access to training of various kinds and signpost our service users to sources of local services, local information and legal advice on various subjects. More importantly, we organise recreational activities including summer beach outings, traditional African music and dancing, Black History Month, picnics and get-togethers among others to bring beneficiaries together to share leisure time and also network.

Finally, we value unity in diversity and the eradication of poverty and ignorance in marginalised societies anywhere in the world. We would therefore work in partnership with like-minded community organisations in pursuit of a free, fair and progressive world.
