

Trustee Opportunities with Dhiverse

In 2015 we saw a significant increase in the demand for our general sexual health work, particularly in our work aimed at informing and supporting young people; people with learning disabilities and difficulties and people from black African and other BAME communities.

Towards the end of 2015 we were successful in securing a Big Lottery Reaching Communities grant to enable us to run our newly developed 'ABC Programme' aimed at people with learning disabilities and difficulties and we are in the process of developing a new 'family' programme for people from the black African community.

Information on all these projects and all our work can be found on our website www.dhiverse.org.uk
